### Create A Colourful Character

#### Try This

Take a photo outside and draw on it using Markup to transform it into a character from a favourite book!

Get started: Open your photo, tap Edit, then tap the three dots in the top-right to use Markup. Experiment with the different tools to help you sketch on your photo.

You will need these apps:

#### Go Further

Invite children to make their own characters from photos of everyday objects using Mark Up.

Take some photos of textures in nature and transform them into familiar characters by adding key features- such as purple prickles or terrible tusks!

### Get Up Close and Personal

#### Try This

- Get down to the detail and use Magnifier to explore the tiny world all around us.
- Get started: Open Magnifier and use the slider bar to focus in on something that interests you. Explore the menu options to adjust brightness, add a filter or lock the focus.

#### Go Further

Invite children to explore their surroundings using Magnifier. What tiny details can they see? Try zooming in on your finger and press the white circle to take a photo of your own unique fingerprint! Take lots of close up photos and challenge a friend to guess what the objects are.

You will need this app:

#### See How You Measure Up

##### Try This

Create real-time measurements and capture them using Measure.

Get Started: Open Measure and point it at an object to get started.

Use + to drop a point and measure, then press the white button to grab a photo.

##### Go Further

Invite children to explore using Measure and capture photos of familiar objects, complete with measurements.

Set a challenge- who can find something 10cm long or two points that are 30cm apart? Can you build or make a tower 20cm tall?

Make some estimates then use Measure to find how accurate they are!
